Why Hire an Attorney?

If you are injured on the job it is best to discuss your claim with an attorney as soon as possible.

It is FREE to discuss your claim. If you decide to hire an attorney, there is never a fee unless the attorney gets you additional benefits beyond what the insurer provides without a fight.

Unfortunately, the workers' compensation system has become so complex that it is impossible for most workers to understand their rights and do what is required to obtain benefits without an attorney.

Our firm prefers to get involved early in the claim so that we can help our clients understand what the insurer is required to do and challenge improper action as soon as possible. Most clients are relieved to have someone to explain the process, monitor the insurers decisions, identify issues that may come up in the future, and help them understand their options.

Remember, the workers' compensation insurer is paid by the employer and is there to protect the employer and keep claim costs to a minimum. The claims adjuster may not be telling you everything you need to know. We are here to keep them honest and ensure that they provide all the benefits required by law.
